**Hard Labour: The Sociology of Parenthood, Family Life and Career (UK Higher Education OUP Humanities & Social Sciences Sociology)** By Caroline Gatrell

*Hard Labour* examines changes in family practices and paid work in the 21st century. Focusing principally on highly qualified women who combine the mothering of very young children with employment, it makes a valuable contribution to current debates.

Unlike other books in the field that focus on one gender only, this innovative book also takes into account the views of fathers, making it a rounded study of family practice in the new millennium. Essential reading for those interested in sociology, family policy, family studies, women's or gender studies, and the sociology of management/employment.
