Editorial Review

Review

"A welcome contribution to introductory studies on Greek history, and aims at presenting not just the historical narration but also the primary sources on which history is based... Whatever their background, all readers will benefit from this study, since Roisman manages to cover thoroughly the main aspects of each period. In addition to the historical narrative the book is supplemented with the basic secondary literature, the primary sources and, clearly one of its strengths, e- sources on the web. Thus, the reader gets a good idea both of the valid scholarly views and of what material exists on the internet to support these views. This work is surely a first step for everyone who wishes to explore Greek history. Finally, what is most helpful and educative is that Roisman's study lets the facts speak for themselves so that readers can form their own opinion about them. It seems that this kind of self-learning is the organising principle of the book. To my knowledge this is the first study of this kind, and I would strongly recommend its translation into other languages so that more students and the general public can benefit from it." (Panagiotis Paraskevas, *Bryn Mawr Classical Review*, 1 October 2012)

"Headlined 'Historical Sources in Translation', this substantial 642-page annotated sourcebook is just the thing to place in the hands of bright sixth-form students doing the OCR AS/A2 Ancient History paper, or of undergraduates enjoying the proliferating Classical Studies courses at university." (The Anglo-Hellenic Review, Autumn 2011)

Review

"Students of ancient Greece will respond to this book as John Sheffield (1709) did to Homer: 'you will hardly need another book.' The new compilation of evidence merits the same praise for its range, aids and the quality of its illustrations and commentaries." – *Carol Thomas, University of Washington*

"This wide-ranging collection of passages from the ancient sources, judiciously selected and edited by Joseph Roisman, and freshly translated by John Yardley, provides students of Greek History with an essential corpus of evidence for the period from Homer to the Macedonian conquest of the East. Roisman and Yardley are richly deserving of our praise and gratitude." – *Waldemar Heckel, University of Calgary*

"If you want a thorough and expert introduction to the evidence of ancient Greek history – in other words, to the building blocks of western civilization – read this book." – *Barry Strauss, Cornell University*

From the Back Cover

Incorporating fresh, new translations of original Greek and Roman texts and drawing on a range of sources, including artistic evidence, this sourcebook provides an inclusive and integrated view of Greek history, from Homer to Alexander the Great.

Linking the political, military, and social history of the Greeks to their intellectual accomplishments, *Ancient*

Greece from Homer to Alexander offers a full and integrated perspective on the period. Rather than compartmentalizing Greek history and civilization into a number of thematic studies, the book focuses on important developments, placing them within their political, economic, cultural, and intellectual contexts, and examining both their influences and their effects.

Ancient Greece from Homer to Alexander puts the reader in touch with the raw material of ancient history and analyzes the importance of this evidence through extensive introductions and explanatory notes. An accompanying website offers additional evidence and explanations, as well as links to useful online resources.

Users Review

From reader reviews:

Mary Molinari:

What do you think about book? It is just for students as they are still students or the item for all people in the world, the particular best subject for that? Just you can be answered for that issue above. Every person has different personality and hobby per other. Don't to be pressured someone or something that they don't would like do that. You must know how great along with important the book *Ancient Greece from Homer to Alexander: The Evidence* (Blackwell Sourcebooks in Ancient History). All type of book is it possible to see on many methods. You can look for the internet solutions or other social media.

Charles Owens:

Do you one of people who can't read enjoyable if the sentence chained within the straightway, hold on guys this aren't like that. This *Ancient Greece from Homer to Alexander: The Evidence* (Blackwell Sourcebooks in Ancient History) book is readable through you who hate the perfect word style.
