Dust of Dreams: Book Nine of The Malazan Book of the Fallen By Steven Erikson

In war everyone loses. This brutal truth can be seen in the eyes of every soldier in every world...

In Letherii, the exiled Malazan army commanded by Adjunct Tavore begins its march into the eastern Wastelands, to fight for an unknown cause against an enemy it has never seen.

And in these same Wastelands, others gather to confront their destinies. The warlike Barghast, thwarted in their vengeance against the Tiste Edur, seek new enemies beyond the border and Onos Toolan, once immortal T'lan Imass now mortal commander of the White Face clan, faces insurrection. To the south, the Perish Grey Helms parlay passage through the treacherous kingdom of Bolkando. Their intention is to rendezvous with the Bonehunters but their vow of allegiance to the Malazans will be sorely tested. And ancient enclaves of an Elder Race are in search of salvation—not among their own kind, but among humans—as an old enemy draws ever closer to the last surviving bastion of the K'Chain Che'Malle.

So this last great army of the Malazan Empire is resolved to make one final defiant, heroic stand in the name of redemption. But can deeds be heroic when there is no one to witness them? And can that which is not witnessed forever change the world? Destines are rarely simple, truths never clear but one certainty is that time is on no one's side. For the Deck of Dragons has been read, unleashing a dread power that none can comprehend...

In a faraway land and beneath indifferent skies, the final chapter of 'The Malazan Book of the Fallen' has begun...

Editorial Review

From Publishers Weekly

Ragged armies and gods old and new collide in the dizzyingly complex penultimate tale of the Malazan Book of the Fallen (following 2008's *Toll the Hounds*). After a traumatic reading of the tiles, Adjunct Tagore of the Malazan decides to quit the Letherii capital. To placate neighboring territories, Brys Beddict and a contingent of Letherii escort Tagore and her army through the Wastelands on their way to the port of Kolanse. The Barghast find their own reasons to head for the Wastelands, as do the T'lan Imass, a group of bloodthirsty Jaghut, and the army of the K'Chain Che'Malle. Gods tweak the players on this continent-sized chess board even as they themselves are manipulated. Erickson begins to reel in the long lines of his huge plot, giving enough hints to leave readers impatient for the 10th volume. (*Jan.*)

In the ninth Malazan Book of the Fallen volume, the last remnant of the Malazan Empire, in exile on the continent of Letherii, marches east against unknown but undoubtedly formidable foes. If the soldiers see themselves and their empire as fallen, they even more certainly see themselves bound by oaths and comradeship to keep faith with one another until the last enemy is identified, met, and, if possible, overcome. If not, their oaths are still binding. There is herein a quality reminiscent of the 300 Spartans coming to the fore that, added to the complexity and grandeur of the world-building, is downright entralling. --Roland Green

Review

"Extraordinarily enjoyable . . . Erikson is a master of lost and forgotten epochs, a weaver of ancient epics."
--*Salon.com*

"Erikson has no peer when it comes to action and imagination, and joins the ranks of Tolkien and Donaldson in his mythic vision and perhaps then goes one better."
