Java: An Introduction to Problem Solving and Programming plus MyProgrammingLab with Pearson eText -- Access Card Package (7th Edition) By Walter Savitch

NOTE: Before purchasing, check with your instructor to ensure you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, and registrations are not transferable. To register for and use Pearson's MyLab & Mastering products, you may also need a Course ID, which your instructor will provide.

Used books, rentals, and purchases made outside of Pearson

If purchasing or renting from companies other than Pearson, the access codes for Pearson's MyLab & Mastering products may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase.

Java: An Introduction to Problem Solving and Programming, 7e, is ideal for introductory Computer Science courses using Java, and other introductory programming courses in departments of Computer Science, Computer Engineering, CIS, MIS, IT, and Business. It also serves as a useful Java fundamentals reference for programmers.

Students are introduced to object-oriented programming and important concepts such as design, testing and debugging, programming style, interfaces inheritance, and exception handling. The Java coverage is a concise, accessible introduction that covers key language features. Objects are covered thoroughly and early in the text, with an emphasis on application programs over applets.

MyProgrammingLab for *Java* is a total learning package. MyProgrammingLab is an online homework, tutorial, and assessment program that truly engages students in learning. It helps students better prepare for class, quizzes, and

exams—resulting in better performance in the course—and provides educators a dynamic set of tools for gauging individual and class progress.

Teaching and Learning Experience

This program presents a better teaching and learning experience—for you and your students.

- **Personalized Learning with MyProgrammingLab:** Through the power of practice and immediate personalized feedback, MyProgrammingLab helps students fully grasp the logic, semantics, and syntax of programming.
- **A Concise, Accessible Introduction to Java:** Key Java language features are covered in an accessible manner that resonates with introductory programmers.
- **Tried-and-true Pedagogy:** Numerous case studies, programming examples, and programming tips are used to help teach problem-solving and programming techniques.
- **Flexible Coverage that Fits your Course:** Flexibility charts and optional graphics sections allow instructors to order chapters and sections based on their course needs.
- **Instructor and Student Resources that Enhance Learning:** Resources are available to expand on the topics presented in the text.

Note: *Java: An Introduction to Problem Solving and Programming* with *MyProgrammingLab Access Card Package*, 7/e contains:

- ISBN-10: 0133766268/ISBN-13: 9780133766264 *Java: An Introduction to Problem Solving and Programming*, 7/e
- ISBN-10: 0133841030/ISBN-13: 9780133841039 *MyProgrammingLab with Pearson eText -- Access Card -- for Java: An Introduction to Problem Solving and Programming*, 7/e

MyProgrammingLab is not a self-paced technology and should only be purchased when required by an instructor.

Editorial Review

Review

"The consistent usage of examples throughout the book is excellent. I rely heavily on examples for instruction as there is no better way to teach programming." — Joan Boone, University of North Carolina, Chapel Hill

From the Back Cover

Introductory Programming / Java™

About the Author

Walter Savitch received his Ph.D. degree in Mathematics from the University of California at Berkeley in 1969. Since that time he has been on the faculty at the University of California at San Diego and is currently a Professor of Computer Science and director of the Interdisciplinary Ph.D. Program in Cognitive Science. Professor Savitch's research areas include complexity theory, formal language theory, computational linguistics, and the development of computer science education materials. In addition to writing numerous research articles and involvement in other editorial projects, he has written a number of well-known computer science textbooks, including Pascal, Ada, and C++ CS1 and CS2 textbooks.

Users Review

From reader reviews:

Douglas Gibson:

As people who live in the actual modest era should be revise about what going on or info even knowledge to make them keep up with the era which is always change and move ahead. Some of you maybe will certainly update themselves by reading books. It is a good choice to suit your needs but the problems coming to you actually is you don't know which you should start with. This Java: An Introduction to Problem Solving and Programming plus MyProgrammingLab with Pearson eText -- Access Card Package (7th Edition) is our recommendation to cause you to keep up with the world. Why, because this book serves what you want and want in this era.

Kevin Kennard:

This Java: An Introduction to Problem Solving and Programming plus MyProgrammingLab with Pearson eText -- Access Card Package (7th Edition) are usually reliable for you who want to certainly be a successful person, why. The key reason why of this Java: An Introduction to Problem Solving and Programming plus MyProgrammingLab with Pearson eText -- Access Card Package (7th Edition) can be one of the great books you must have is giving you more than just simple reading food but feed you actually with information that perhaps will shock your prior knowledge. This book will be handy, you can bring it just about everywhere and whenever your conditions at e-book and printed kinds. Beside that this Java: An Introduction to Problem

Solving and Programming plus MyProgrammingLab with Pearson eText -- Access Card Package (7th Edition) giving you an enormous of experience for example rich vocabulary, giving you test of critical thinking that we realize it useful in your day activity. So , let's have it and enjoy reading.

Frank Cockerham:

Reading a publication tends to be new life style with this era globalization. With studying you can get a lot of information that could give you benefit in your life. Having book everyone in this world can easily share their idea. Textbooks can also inspire a lot of people. Many author can inspire their very own reader with their story or maybe their experience. Not only the story that share in the textbooks. But also they write about advantage about something that you need case in point. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book that exist now. The authors on earth always try to improve their proficiency in writing, they also doing some research before they write to the book. One of them is this Java: An Introduction to Problem Solving and Programming plus MyProgrammingLab with Pearson eText -- Access Card Package (7th Edition).

Joseph Blackwell:

As we know that book is very important thing to add our knowledge for everything. By a reserve we can know everything we wish. A book is a pair of written, printed, illustrated as well as blank sheet. Every year has been exactly added. This book Java: An Introduction to Problem Solving and Programming plus MyProgrammingLab with Pearson eText -- Access Card Package (7th Edition) was filled with regards to science. Spend your time to add your knowledge about your scientific research competence. Some people has various feel when they reading some sort of book. If you know how big benefit of a book, you can really feel enjoy to read a book. In the modern era like today, many ways to get book that you just wanted.
