#### **From the Publisher**

"Rays of Truth by Dr. Fred Bell is destined to become a major resource book for all people who are truly ready to shed old technologies and philosophies that not only have been destroying the Earth but have been destroying our bodies as well. As Neptune moves firmly into Aquarius in the coming years, our world leaders must come into the Light and Truth. They must help all of humanity embrace the free energy and healing technologies that have been purposely kept secret for many decades, possibly even centuries. Now is the time for conscious action and responsible change."

#### **About the Author**

Dr. Fred Bell was born in Ann Arbor, Michigan. At nine years old he was working at the University of Michigan on projects such as early Stealth (later known as the Philadelphia experiment) and the "Pinch effect," the predecessor to nuclear fusion (H Bomb). At sixteen years old, he entered the United States Air Force (he could not wear a uniform until his seventeenth birthday because that was the legal age of admission with parental consent.) During his Air Force days he worked on SAGE radar tracking UFOs in northern California. The sister SAGE site to Dr. Fred Bell's was later known as the Montauk in upstate New York, notorious for UFO sightings.
