## Soldiers, Statesmen, and Cold War Crises By Richard Betts

*Soldiers, Statesmen, and Cold War Crisis* explores, in fascinating depth, the nature, direction, and impact of military and civilian influence on violence. Richard K. Betts discusses the postwar involvement of U.S. military and nonmilitary leaders in decisions on the use of force in foreign affairs, and the variety of advice from the different military services. Twenty intervention decisions and ten escalation decisions in crises are examined, including Korea, Berlin, Cuba, and Vietnam. To update this edition Betts has written a preface analyzing the significance of the issues in light of the evolution of events and information declassified since the book's original publication. He has also written an epilogue discussing several recent cases.

## **Editorial Review**

### **Review**

A superb work (*Perspective*)

An excellent use of analysis to separate policy fact from speculative fiction, disproving the widely held assumption that military professionals are more aggressive than civilian leaders in advocating the use of force.... An extremely important study... (*Foreign Affairs*)

One of the most profound and perceptive books about the management of violence yet to appear....[with] thoroughness of research, elegance of writing and persuasion of argument... (*Survival*)
