**Time Series Models for Business and Economic Forecasting** By Philip Hans Franses, Dick van Dijk, Anne Opschoor

With a new author team contributing decades of practical experience, this fully updated and thoroughly classroom-tested second edition textbook prepares students and practitioners to create effective forecasting models and master the techniques of time series analysis. Taking a practical and example-driven approach, this textbook summarises the most critical decisions, techniques and steps involved in creating forecasting models for business and economics. Students are led through the process with an entirely new set of carefully developed theoretical and practical exercises. Chapters examine the key features of economic time series, univariate time series analysis, trends, seasonality, aberrant observations, conditional heteroskedasticity and ARCH models, non-linearity and multivariate time series, making this a complete practical guide. Downloadable datasets are available online.

### **Editorial Review**

#### **Review**

"I highly recommend the second edition of this book. The authors have made wise choices of covering the most valuable and practical time-series methods for economic and business forecasting. The text is well written and the exercises and illustrations connect with some of the best statistical software available. In an age of digital time-series data explosion in a variety of disciplines, this book can only gain in importance and impact."

Dominique M. Hanssens, Bud Knapp Distinguished Professor of Marketing, University of California, Los Angeles

"This book is well written; it takes the reader through a carefully selected part of the recent and important research on time series models to be used for out-of-sample forecasting. In short, the book is a must for students of this area."

Svend Hylleberg, Dean of the School of Business and Social Sciences, Aarhus University

#### **About the Author**

Philip Hans Franses is Professor of Applied Econometrics and Professor of Marketing Research at the Erasmus School of Economics.

Dick van Dijk is Professor of Financial Econometrics at the Erasmus School of Economics.

Anne Opschoor has recently completed a Ph.D. at the Erasmus School of Economics and is an Assistant Professor at the Free University.

### **Users Review**

#### **From reader reviews:**

##### **Laura Thompson:**

The book Time Series Models for Business and Economic Forecasting make you feel enjoy for your spare time. You may use to make your capable considerably more increase. Book can to become your best friend when you getting strain or having big problem together with your subject. If you can make examining a book Time Series Models for Business and Economic Forecasting for being your habit, you can get considerably more advantages, like add your own personal capable, increase your knowledge about a few or all subjects. You can know everything if you like open up and read a publication Time Series Models for Business and Economic Forecasting. Kinds of book are several. It means that, science publication or encyclopedia or others. So , how do you think about this publication?

##### **Jonathan Garcia:**

This book untitled Time Series Models for Business and Economic Forecasting to be one of several books this best seller in this year, honestly, that is because when you read this reserve you can get a lot of benefit upon it.
