Editorial Review

Review

"Robert Hargrove's *Masterful Coaching* sets the context of the coach as steward rather than mere teacher, a critical agent in transforming organizational cultures and developing the skills and capabilities necessary for new cultures to be sustained." (Peter Senge, author, *The Fifth Discipline: The Art and Practice of the Learning Organization*)

"Finally, a book that helps release people's collective aspirations—almost non-existent in today's corporate environment—and links them to business goals. A treasure trove of 'take-action' tools!" (Melanie Warren, vice president, Fidelity Investments)

From the Inside Flap

Masterful Coaching

"What is Masterful Coaching?" asks Robert Hargrove. "Masterful coaching is about nothing but co-creating an Impossible Future with someone—from a good leader to great one, from a third world nation to a first, from industry follower to industry game changer."

Says Hargrove, "Coaching is the fastest, most powerful way to develop leaders at all levels." Ask people "What is impossible that you are going to do today?" versus 'How are we going to get our list of homogenized corporate leadership competencies into you?"'

As people stretch to reach goals, they realize that what got them here as a leader isn't going to get them there. Masterful coaching is about transformational learning, not transactional techniques.

When the first edition of Masterful Coaching was published, it quickly became the standard resource for anyone who was a coach, considering becoming a coach, or curious about being an extraordinary coach. In this completely revised third edition of his groundbreaking book, Hargrove presents his profound insights into the journey of becoming a masterful coach along with guiding ideas, tools, and methods.

You will gain the confidence and skills needed to master one-year coaching engagements with Hargrove's 12 Catalytic Coaching Conversations.

This new edition will show you how to:

- Stand in people's greatness, even when they fall from it
- Coach executives to realize an Impossible Future and Transformational Change
