Knots and Borromean Rings, Rep-Tiles, and Eight Queens: Martin Gardner's Unexpected Hanging (The New Martin Gardner Mathematical Library)

By Martin Gardner

Knots and Borromean Rings, Rep-Tiles, and Eight Queens: Martin Gardner's Unexpected Hanging (The New Martin Gardner Mathematical Library) By Martin Gardner

The hangman's paradox, cat's cradle, gambling, peg solitaire, pi and e. All these and more are back, in Martin Gardner's inimitable style, with updates on new developments and discoveries. Read about how knots and molecules are related, take a trip into the fourth dimension, try out new dissections of stars, crosses and polygons, and challenge yourself with new twists on classic games.

Editorial Review

Review
'Martin Gardner's fifteen volumes about mathematical games are the Canon - timeless classics that are always worth reading and rereading.' Don Knuth

'Gardner is a model teacher of mathematics, pushing others to take interesting side explorations, solve challenging problems, and enjoy the beauty of mathematics. This reviewer applauds the republication of his genius in 'The New Martin Gardner Mathematical Library' series, complete with revised explanations, new insights, up-to-date reference links, and brief surveys of recent discoveries ... it is worth getting the new editions and sharing these new gems!' J. Johnson, Choice

'I recommend you approach this book on a Sunday afternoon, with paper and pen, a few biscuits for brain-power and a good hour to spare for puzzling. It is worth it.' Charlotte Mulcare, + plus Magazine

About the Author
For twenty-five years, Martin Gardner wrote 'Mathematical Games and Recreations', a monthly column for Scientific American magazine. These columns have inspired hundreds of thousands of readers to delve more deeply into the large world of mathematics. He also made significant contributions to magic, philosophy, debunking pseudoscience, and children's literature. He produced more than 60 books, including many best sellers, most of which are still in print, and wrote a regular column for the Skeptical Inquirer magazine from 1983 to 2002. His Annotated Alice has sold more than a million copies.

Users Review

From reader reviews:

Alan Dougherty:

Do you have favorite book? For those who have, what is your favorite's book? Guide is very important thing for us to be aware of everything in the world. Each book has different aim or even goal; it means that e-book has different type. Some people truly feel enjoy to spend their time for you to read a book. They can be reading whatever they consider because their hobby is definitely reading a book. Think about the person who don't like studying a book? Sometime, particular person feel need book if they found difficult problem or exercise. Well, probably you will want this Knots and Borromean Rings, Rep-Tiles, and Eight Queens: Martin Gardner's Unexpected Hanging (The New Martin Gardner Mathematical Library).

Allison Price:

The book Knots and Borromean Rings, Rep-Tiles, and Eight Queens: Martin Gardner's Unexpected Hanging (The New Martin Gardner Mathematical Library) make you feel enjoy for your spare time. You may use to make your capable more increase. Book can to be your best friend when you getting anxiety or having big problem along with your subject. If you can make examining a book Knots and Borromean Rings, Rep-Tiles, and Eight Queens: Martin Gardner's Unexpected Hanging (The New Martin Gardner Mathematical Library)

to become your habit, you can get more advantages, like add your current capable, increase your knowledge about a number of or all subjects. It is possible to know everything if you like wide open and read a guide Knots and Borromean Rings, Rep-Tiles, and Eight Queens: Martin Gardner's Unexpected Hanging (The New Martin Gardner Mathematical Library). Kinds of book are a lot of. It means that, science publication or encyclopedia or other people. So , how do you think about this guide?

Ann Conley:

In this 21st hundred years, people become competitive in every single way. By being competitive right now, people have do something to make these people survives, being in the middle of typically the crowded place and notice through surrounding. One thing that occasionally many people have underestimated this for a while is reading. Yep, by reading a book your ability to survive increase then having chance to endure than other is high. For yourself who want to start reading any book, we give you this particular Knots and Borromean Rings, Rep-Tiles, and Eight Queens: Martin Gardner's Unexpected Hanging (The New Martin Gardner Mathematical Library) book as nice and daily reading book. Why, because this book is greater than just a book.

Debera Jessie:

A lot of people always spent all their free time to vacation or even go to the outside with them household or their friend. Are you aware? Many a lot of people spent they free time just watching TV, or playing video games all day long. If you need to try to find a new activity this is look different you can read a book. It is really fun to suit your needs. If you enjoy the book that you just read you can spent 24 hours a day to reading a e-book. The book Knots and Borromean Rings, Rep-Tiles, and Eight Queens: Martin Gardner's Unexpected Hanging (The New Martin Gardner Mathematical Library) it is very good to read. There are a lot of people who recommended this book. These people were enjoying reading this book. If you did not have enough space to create this book you can buy the e-book. You can m0ore effortlessly to read this book through your smart phone. The price is not too expensive but this book features high quality.
