Editorial Review

Review

From the reviews:

"The value of this book is in explaining, or attempting to explain, the idea and how to implement it. ... This book succeeds in outlining how to go about solving the problems using VB.NET and .NET in general. There are some useful examples and lots of descriptions If you want to be on the cutting edge of a new technology then this book provides a practical approach." (Mike James, Visual Systems Journal, April, 2004)

About the Author

Matthew MacDonald is an author, educator, and MCSD developer who has a passion for emerging technologies. He is the author of more than a dozen books about .NET programming. In a dimly-remembered past life, he studied English literature and theoretical physics.

Users Review

From reader reviews:

Johanna Garrett:

Reading a e-book tends to be new life style in this era globalization. With looking at you can get a lot of information which will give you benefit in your life. Using book everyone in this world can easily share their idea. Publications can also inspire a lot of people. Plenty of author can inspire their reader with their story or even their experience. Not only situation that share in the guides. But also they write about the ability about something that you need case in point. How to get the good score toefl, or how to teach your children, there are many kinds of book which exist now. The authors on earth always try to improve their talent in writing, they also doing some investigation before they write to their book. One of them is this Peer-to-Peer with VB .NET.

Ginger Beals:

Many people spending their moment by playing outside together with friends, fun activity together with family or just watching TV 24 hours a day. You can have new activity to spend your whole day by studying a book. Ugh, ya think reading a book really can hard because you have to use the book everywhere? It ok you can have the e-book, having everywhere you want in your Touch screen phone. Like Peer-to-Peer with VB .NET which is obtaining the e-book version. So , try out this book? Let's notice.

Joel Faulkner:

Within this era which is the greater individual or who has ability in doing something more are more special than other. Do you want to become considered one of it? It is just simple strategy to have that. What you

should do is just spending your time almost no but quite enough to enjoy a look at some books. One of many books in the top collection in your reading list will be Peer-to-Peer with VB .NET. This book that is qualified as The Hungry Hills can get you closer in becoming precious person. By looking upwards and review this book you can get many advantages.

Joan McCorkle:

You can get this Peer-to-Peer with VB .NET by visit the bookstore or Mall. Just simply viewing or reviewing it could possibly to be your solve difficulty if you get difficulties for the knowledge. Kinds of this publication are various. Not only by means of written or printed but also can you enjoy this book by means of e-book. In the modern era including now, you just looking by your local mobile phone and searching what their problem. Right now, choose your personal ways to get more information about your e-book. It is most important to arrange yourself to make your knowledge are still revise. Let's try to choose appropriate ways for you.
