WHAT THE BUSINESS WORLD SAYS ABOUT SIX SIGMA

“[Six Sigma] is the most important initiative GE has ever undertaken...it is part of the genetic code of our future leadership.” -- Jack Welch, CEO, GE

“We’ve taken the difficult but basic Six Sigma skill of reducing defects and applied it to every business process, from inventing and commercializing a new product all the way to billing and collections after the product is delivered. Just as we think we’ve generated the last dollar of profit out of a business, we uncover new ways to harvest cash as we reduce cycle times, lower inventories, increase output, and reduce scrap. The results are better and more competitively priced products, more satisfied customers who give us more business, and improved cash flow.” --Larry Bossidy, CEO, AlliedSignal

“The [Six Sigma] Breakthrough Strategy gives new structure to the tools we already had. Structure has been the key element missing in Polaroid’s drive for quality. I keep telling my people that the Breakthrough Strategy cookbook tells us how to use time-tested ingredients in new ways...For us, the results from the Breakthrough Strategy have been quick and powerful.” ---Mike Hart, Black Belt Engineer, Polaroid

“Mikel Harry’s innovation of Breakthrough Strategy has taken quality into America’s boardrooms. While Dr. Deming’s theory of profound knowledge built management awareness and Dr. Juran’s trilogy helped to establish the foundation of a solid quality ‘science,’ Dr. Harry has demonstrated how to make theory become practice at companies like Motorola, ABB, AlliedSignal, and GE.”

-- Gregory Watson, President, American Society for Quality
