## Hunting the Jackal: A Special Forces and CIA Soldier's Fifty Years on the Frontlines of the War Against Terrorism By Billy Waugh, Tim Keown

For more than half a century, Special Forces and CIA legend Billy Waugh dedicated his life to tracking down and eliminating America's most virulent enemies. Operating from the darkest shadows and most desolate corners of the world, he made his mark in many of the most important operations in the annals of U.S. Spec Ops.

He spent seven and a half years behind enemy lines in Vietnam as a member of a covert group of elite commandos. He trailed Osama Bin Laden in Khartoum in the early '90s, and would have killed the terrorist kingpin if his superiors had allowed it. And at the age of seventy-two, he marched through the frozen high plains of Afghanistan as part of Operation Enduring Freedom.

**Hunting the Jackal** is the astonishing true account of the singular career of a courageous soldier in his nation's shadow wars -- including his pivotal role in the previously untold story of the capture of the most infamous and elusive assassin in history, Carlos the Jackal.

### Editorial Review

From Publishers Weekly

This bloody, chest-thumping memoir showcases the Special Forces mindset at its most fanatical. Maimed in a firefight with the North Vietnamese, Waugh limped back to Vietnam, his shrapnel-riddled leg oozing pus, to volunteer for six more years in combat. When that war wound down, Waugh bounced around until he found a new lease on life as an "independent contractor" with the CIA. Happily ensconced in squalid, sweltering Khartoum in the early 1990s, he surveiled all-star terrorist Carlos the Jackal and kept tabs on up-and-comer Osama bin Laden, for whom he drew up assassination plans, only to have them nixed by "sanctimonious" higher-ups. Never one to fade away, Waugh, age 71, wangled his way into a Special Forces unit for the 2001 campaign in Afghanistan, where the younger soldiers "worshipped" him. There he relished the awesome accuracy of American smart bombs, but still pined for the excitement of the up close and personal throat-slitting and machine-gunning of his salad days in Vietnam. Waugh is a Special Forces zealot, reserving his bitterest ire not for Communists and terrorists but for squeamish civilian officials and conventional military brass who disdain special ops. He doggedly eschews introspection, proclaiming himself "a man of action, a man who functions" without "gazing into the distance, pondering the meaning of it all." Co-writer Keown, co-author of the Dennis Rodman memoir *Bad as I Wanna Be*, keeps the writing taut, pungent and full of coarse, often gross, thrills and lots of special ops and spycraft lore. But Waugh himself emerges as a one-dimensional, blustering character to whom the years seem to have bequeathed more fervor than wisdom. Photos not seen by PW.

In this all-action memoir, Waugh, with help from professional writer Keown, recalls a half-dozen episodes from Vietnam, Sudan, and Afghanistan. These were selected from a fund of combat and intelligence experiences in 60 countries that, according to Waugh, he otherwise can't talk about. Although Waugh expresses the warrior ethic that has motivated him, in general, he is not personally revealing beyond exhibiting mission-oriented drive in dispatching the enemy. Waugh describes battles he was involved in, some as a member of the Study and Observation Group, the subject of several recent histories (e.g., *Secret Commandos* by John Plaster [BKL My 1 04]). After surviving the Vietnam War with medals for valor and shrapnel in his body, Waugh was contracted by the CIA to conduct surveillance on infamous terrorists such as Osama bin Laden and Carlos the Jackal. Waugh recounts tailing them in the early 1990s (ruing that his proposals to kill them weren't accepted) and concludes with his participation--at age 71--with American special forces in Afghanistan. That's a record sure to awe students of special-operations warfare. *Gilbert Taylor*
