Introduction to Oncogenes and Molecular Cancer Medicine (AIP Conference Proceedings; 438) By Dennis W. Ross

Providing the physician with a solid understanding of molecular biology and its applications for the diagnosis and treatment of cancer, this book reviews the basic molecular and other principles of cancer medicine, including controls of cell growth and senescence, carcinogenesis, tumorogenesis, and epidemiology. The second part of the book gives clinical examples to demonstrate the basic science principles, including chapters on leukaemia, colon cancer, and breast cancer. A chapter on molecular diagnostics and screening plus a chapter on new molecular anti-cancer therapies allow readers an insight into current therapies as well as the future of molecular cancer medicine. A useful glossary defines new terminology at-a-glance. Written in a user-friendly, conversational format, this text will be welcomed by all physicians eager to sharpen their own understanding of molecular cancer medicine as well as to help them provide patients with balanced information on the advances and limitations of current treatment options.

Editorial Review

Users Review

From reader reviews:

Stephen Stover:

The book untitled Introduction to Oncogenes and Molecular Cancer Medicine (AIP Conference Proceedings; 438) is the book that recommended to you you just read. You can see the quality of the guide content that will be shown to you actually. The language that author use to explained their way of doing something is easily to understand. The author was did a lot of study when write the book, to ensure the information that they share to you personally is absolutely accurate. You also might get the e-book of Introduction to Oncogenes and Molecular Cancer Medicine (AIP Conference Proceedings; 438) from the publisher to make you more enjoy free time.

Naomi Taylor:

Spent a free the perfect time to be fun activity to perform! A lot of people spent their down time with their family, or their own friends. Usually they carrying out activity like watching television, going to beach, or picnic inside the park. They actually doing same every week. Do you feel it?
