**Ethics of Withdrawal of Life-Support Systems: Case Studies on Decision Making in Intensive Care (Contributions in Women's Studies)** By Douglas N. Walton

A well-organized, thoughtful, and logical discussion of a difficult ethical issue frequently encountered by clinicians.

*Journal of the American Medical Association*

Walton has made a successful attempt to write about medical concerns without ever leaving the layperson to flounder in confusion. *Probate Law Journal*

In recent years the question of when to terminate life-extending medical treatments has become a thorny social issue. Douglas Walton has brought together a number of these case studies and analyzed the very difficult issues they raise.

### **Editorial Review**

#### **Review**

"Very good introduction to ethical issues raised in Intensive Care Units (ICU) surrounding decisions of whether to continue or stop medical treatments. Written by a philosopher and known author on these issues, this volume covers common ethical theories, definitions of death illustrated with legal cases, the concept of decision making for or against continuing medical treatment in ICUs, and the patient, family, and physician as potential decision makers in such situations."-Choice
