Seals and Sealing Handbook, Fifth Edition By Robert K. Flitney

Wherever machinery operates there will be seals of some kind ensuring that the machine remains lubricated, the fluid being pumped does not leak, or the gas does not enter the atmosphere. Seals are ubiquitous, in industry, the home, transport and many other places. This 5th edition of a long-established title covers all types of seal by application: static, rotary, reciprocating etc. The book bears little resemblance to its predecessors, and Robert Flitney has re-planned and re-written every aspect of the subject. No engineer, designer or manufacturer of seals can afford to be without this unique resource.

- Wide engineering market
- Bang up to date!
- Only one near competitor, now outdated

Editorial Review

About the Author

Robert Flitney is a Chartered Mechanical Engineer in the UK and a Member of the Institution of Mechanical Engineers. His early engineering experience involved the operation and maintenance of power and process plants in the marine and frozen food industries. This was followed by 35 years of contract R&D on Fluid Sealing Technology at BHR Group, including 10 years managing this activity.

He has authored or co-authored over 50 papers, presented at international conferences, has been invited to provide the keynote presentation at Sealing Seminars, and was Convenor of the ISO Working Group responsible for reciprocating seal test standards. His current activities include consultancy and training on seals and sealing technology, and he is Technical Editor of Sealing Technology, a monthly newsletter for industry.

Users Review

From reader reviews:

George Walker:

The book Seals and Sealing Handbook, Fifth Edition can give more knowledge and information about everything you want. So just why must we leave a very important thing like a book Seals and Sealing Handbook, Fifth Edition? A few of you have a different opinion about reserve. But one aim that book can give many info for us. It is absolutely appropriate. Right now, try to closer together with your book.

Knowledge or information that you take for that, it is possible to give for each other; it is possible to share all of these. Book Seals and Sealing Handbook, Fifth Edition has simple shape but you know: it has great and big function for you. You can seem the enormous world by start and read a reserve. So it is very wonderful.

Norman Brown:

This Seals and Sealing Handbook, Fifth Edition is great book for you because the content and that is full of information for you who else always deal with world and also have to make decision every minute. This kind of book reveal it details accurately using great organize word or we can claim no rambling sentences included. So if you are read it hurriedly you can have whole details in it. Doesn't mean it only offers you straight forward sentences but hard core information with splendid delivering sentences. Having Seals and Sealing Handbook, Fifth Edition in your hand like finding the world in your arm, info in it is not ridiculous one particular. We can say that no book that offer you world with ten or fifteen minute right but this book already do that. So , this really is good reading book. Hey there Mr. and Mrs. active do you still doubt that?

Randall Rearick:

Reading a book to be new life style in this year; every people loves to examine a book. When you read a book you can get a lots of benefit. When you read ebooks, you can improve your knowledge, simply because book has a lot of information into it. The information that you will get depend on what types of book that

you have read. In order to get information about your study, you can read education books, but if you want to entertain yourself you are able to a fiction books, these us novel, comics, and also soon. The Seals and Sealing Handbook, Fifth Edition provide you with a new experience in reading through a book.

Mary Brown:

Do you like reading a publication? Confuse to looking for your selected book? Or your book has been rare? Why so many question for the book? But virtually any people feel that they enjoy intended for reading. Some people likes reading through, not only science book but also novel and Seals and Sealing Handbook, Fifth Edition or even others sources were given know-how for you. After you know how the truly great a book, you feel wish to read more and more. Science publication was created for teacher or perhaps students especially. Those guides are helping them to put their knowledge. In some other case, beside science reserve, any other book likes Seals and Sealing Handbook, Fifth Edition to make your spare time more colorful. Many types of book like this.
