### Editorial Review

From Library Journal

Here, Klauser (*Writing on Both Sides of the Brain; Put Your Heart on Paper*) instructs her readers to write down their most extravagant wishes and, merely by the act of recording them, make them come true. She claims that the writings themselves are so powerful that they will influence external circumstances. Eventually, however, she reveals that this wish-writing is neither magical nor miraculous. It requires practitioners not only to write their wishes but also to participate actively in achieving them. Her technique is intended to clarify goals, increase self-confidence, and dispel self-doubt, and she describes how it has dramatically improved her life and the lives of her friends and acquaintances. Her faith in the power of writing is evident in her work; readers who share her faith may benefit from her prescribed course of wish fulfillment. Recommended for all public libraries.
